

BaoTa Export

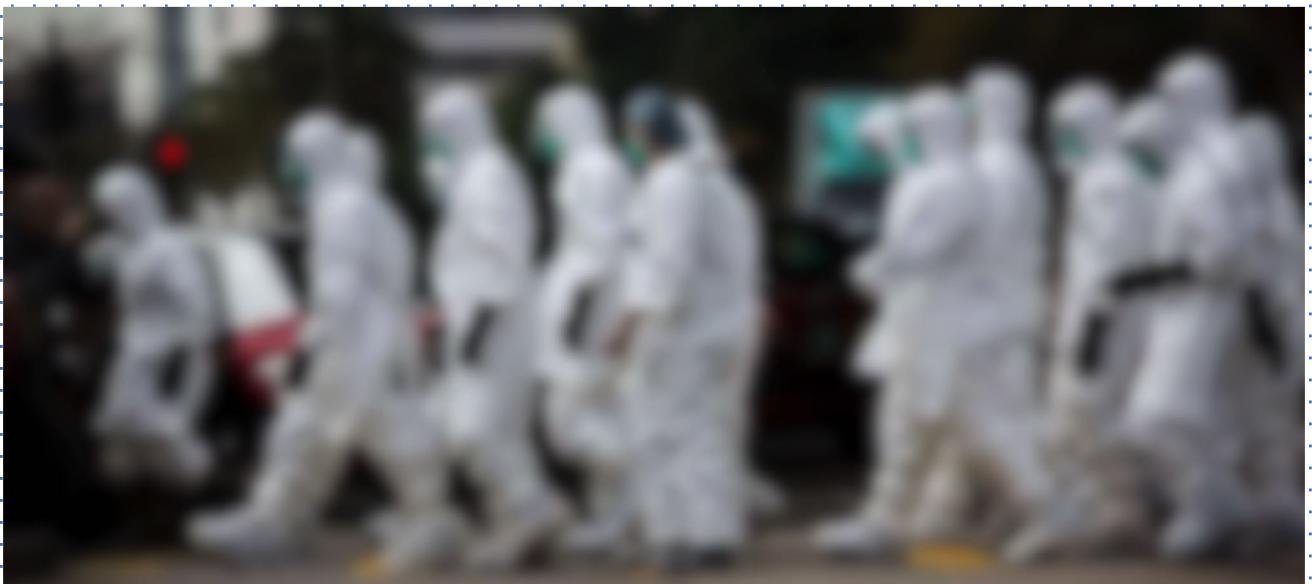

HEAL THE WORLD.....

-----Dalian BaoTa Export

2020 is a disaster-prone year, especially Covid-19's global turmoil has made everything worse.

All humans have to resist are terrible viruses, protecting every life!

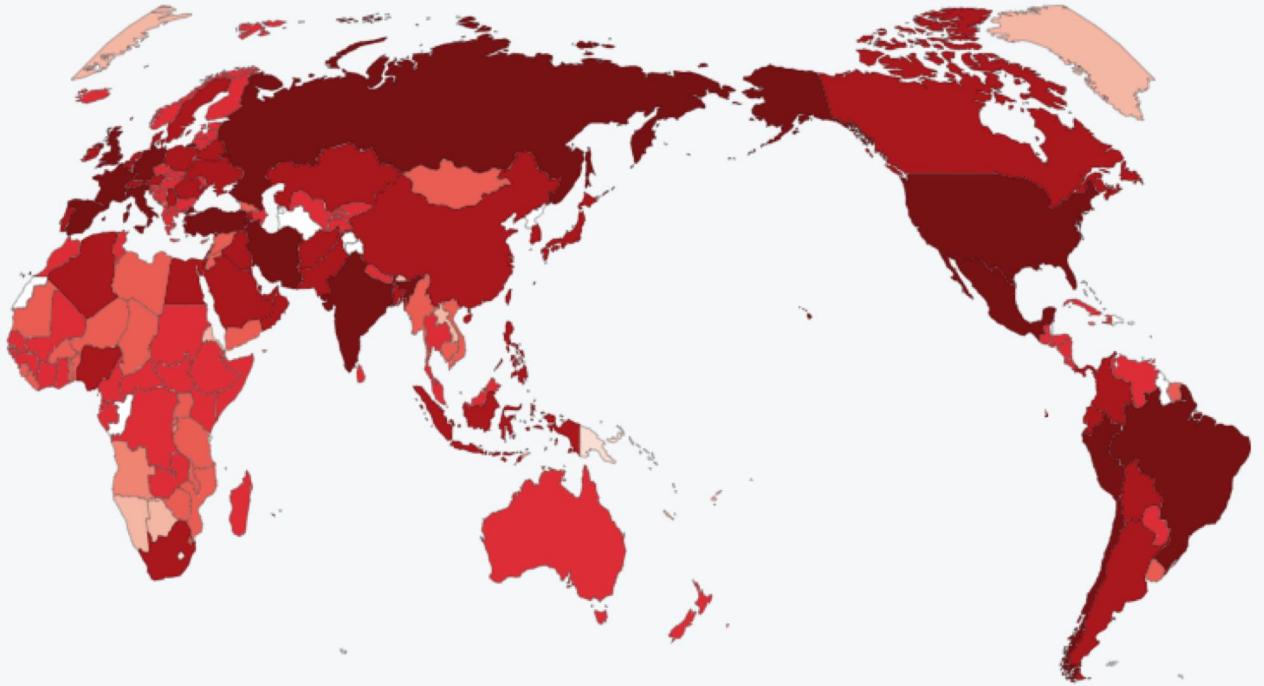

The epidemic broke out in China in January ,
has been brought under control after March.
In China with a large population,
the reason why it is so effectively controlled,
After all, people still have the consciousness to wear masks.
Of course, all protective materials must be kept up.

After China resumes work, especially at this stage, there are sufficient raw material reserves and sufficient supplies, and the price of epidemic prevention materials has calmed down.

At present, there are places in the world where order is restored and PPE are needed; places where the epidemic is still spreading need even more protection of PPE. China has sufficient production capacity and is the world's factory.

Dalian BAOTA Trading co. ,Ltd is your best purchasing partner.

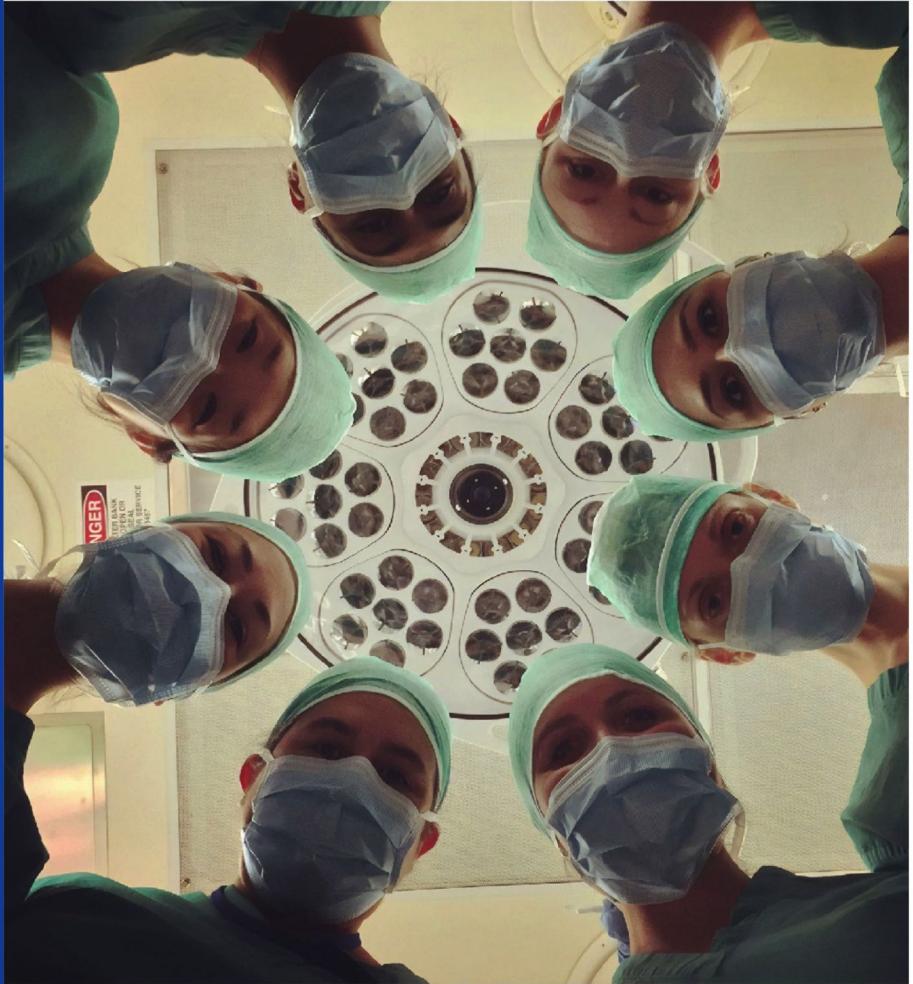

From April 2020 to the present, BAOTA, which has 12 years of experience in import and export trading company, began to assist in procurement at the request of international customers and business partners. Accumulated the first-line experience in China's PPE procurement market.

In line with the tenet of "factory integrity, high quality, lowest price", we have selected the best factories in China to make our world a better place!
